PROFILE SUMMARY

Results-driven Senior QA Analyst with 5.8+ years of dedicated experience engineering quality assurance strategies across SaaS, e-commerce, banking, and defense sectors. Expert in driving the full Software Testing Life Cycle (STLC), encompassing manual, functional, regression, and API testing. Strong hands-on experience in Selenium WebDriver with Python, Automation Framework Design (POM, Data-Driven), and CI/CD integration and JIRA for meticulous defect management. Proven ability to lead high-performing QA teams, collaborate with cross-functional stakeholders, and champion Agile methodologies to deliver robust, user-centric software solutions.

SKILLS & TOOLS

Testing Expertise: Manual Testing, Functional Testing, Regression Testing, Integration Testing, System Testing, User Acceptance Testing (UAT), API Testing (REST), Security Testing, UI/UX Testing.

Automation & Tools: Selenium WebDriver, Python, Postman API, HP QTP, JIRA, Git, Test Case Management Tools, AI Tools (Basic).

Frameworks: Page Object Model (POM), Data-Driven Framework, Hybrid Framework

Methodologies: Agile (Scrum), Waterfall, V-Model, SDLC, STLC.

WORK EXPERIENCE

Senior QA Analyst – FXBytes Technologies Pvt. Ltd.

Feb 2024 – Nov 2025

Projects: LegalOps Platform (SaaS), Defence Business Management System

- **QA Leadership:** Led QA activities for 2 large-scale enterprise projects, significantly improving release quality and cross-functional team alignment.
- **Test Execution:** Performed comprehensive end-to-end testing (Manual, Functional, API, Security) for complex cloud-based and SaaS applications.
- **Defect Management:** Managed the complete defect lifecycle using JIRA, ensuring faster resolution timelines and clear stakeholder communication.
- **UX Enhancement:** Delivered actionable UI/UX feedback that drove tangible improvements in application usability and customer satisfaction.
- **Process Optimization:** Implemented Agile QA practices within the department, increasing team efficiency, flexibility, and adaptability.

Tools: JIRA, Postman, Selenium WebDriver, Python, Git, SQL

Senior QA Analyst – Alphawizz Technologies Pvt. Ltd.

Sep 2023 – Feb 2024

Project: Enterprise E-commerce Mobile Application (Android/iOS)

- **Lifecycle Management:** Managed the complete QA lifecycle for high-traffic mobile applications, guaranteeing high-quality and timely project delivery.
- **Stakeholder Collaboration:** Conducted proactive client calls and requirement discussions, improving project clarity and reducing scope creep.
- **Issue Resolution:** Collaborated tightly with cross-functional engineering teams to resolve critical issues efficiently, minimizing release rollbacks.
- **Defect Prevention:** Contributed vital insights during the requirement analysis phase, preempting and preventing future software defects.
- **Team Mentorship:** Mentored junior QA engineers in testing best practices, fostering a culture of continuous learning and improving overall team productivity.

Tools: JIRA, Postman, API Testing

QA Engineer – 6DegreesIT Pvt. Ltd.

Jul 2021 – Aug 2023

Project: Franchise Soft (SaaS Platform)

- **E2E Testing:** Handled end-to-end QA operations including strategic test planning, precise execution, and rigorous defect tracking.
- **System Reliability:** Conducted exhaustive E2E and regression testing for core CRM and communication modules, ensuring maximum uptime and stability.
- **Reporting:** Prepared comprehensive QA reports and communicated project progress transparently to key stakeholders and management.
- **Collaboration:** Partnered with developers to troubleshoot complex issues, improving product reliability and reducing post-launch defects.

Tools: JIRA, Postman, API Testing, HP QTP

Associate Consultant (Business Analyst) – The Basics Digital Solutions Pvt. Ltd. Jul 2017 – Mar 2018

- **Requirement Analysis:** Gathered, elicited, and analyzed complex business requirements from key stakeholders.
- **Documentation:** Created comprehensive Business Requirement Documents (BRDs), designed intuitive process flows, and maintained project documentation.
- **Solution Strategy:** Conducted requirement workshops and solution-oriented discussions to align development with client expectations.
- **Stakeholder Engagement:** Delivered high-quality presentations and data-driven insights to both internal and external stakeholders.

QA Test Engineer – Touchstone Infotech LLP Jul 2016 – Aug 2017

Project: Banking Project (RBS - Rainbow Program)

- **Migration Testing:** Performed Functional Testing, UAT, regression, and system integration testing.
- **Validation Cycles:** Executed test cases to validate business requirements and application workflows regression, and system integration testing.
- **Defect Tracking:** Managed and tracked defects utilizing JIRA, collaborating closely with developers to ensure timely resolution.
- **Release Support:** Actively supported deployment and release activities, ensuring seamless transitions of builds into production.

Tools: JIRA, HP QTP

EDUCATION

Bachelor of Technology (B.Tech / B.E.) in Information Technology 2012

Rajiv Gandhi Proudlyogiki Vishwavidyalaya (RGPV), Bhopal

CERTIFICATIONS & ACHIEVEMENTS

- **Leadership Excellence:** Awarded for outstanding performance in leading the QA team on high-stakes Email Campaign Projects.
- **Agile Champion:** Recognized for successfully championing and integrating Agile methodologies within the QA department.
